Basic Life Support (BLS/CPR) for Healthcare Providers (HCP)

The BLS for Healthcare Providers course contains updated content and science from the 2005 Guidelines for CPR and Emergency Cardiac Care. The course addresses core material such as:

Adult, child & infant CPR (including two-rescuer scenarios):

- The introduction or use of bag valve mask resuscitator
- The use of a pocket mask or other barrier devices
- Treatment of foreign-body airway obstruction (adults, children & infants)
- The use of an automated external defibrillator (AED)
- Recognition of heart attack, stroke, and special resuscitation situations
- Practical and written evaluation

The course is designed for healthcare providers such as emergency medical services (EMS) personnel, physicians, Midwives, nurses, and respiratory therapists who need a credentialed course. This course is open to first responders who have a duty to respond to a cardiac emergency because of job responsibilities or regulatory requirements. All participants will receive a heart and stroke foundation face mask key chain.

Completion Criteria

Ability to comprehend, successfully demonstrate skill competency and pass a knowledge evaluation (closed book written test) with a minimum mark of 84%.

Pre-requisites

Participants are responsible for obtaining and reviewing the manual for BLS for Healthcare Providers Course, 2005 Canadian Edition **prior** to the course. The manual provides updated content and many new illustrations for credentialed healthcare providers. A student CD is included with the text and contains supplemental information on topics such as stroke, cardiac arrest and special resuscitation situations. The manual can be borrowed with a deposit of \$20.00 cheque payable to YCH. The cheques will be return upon receipt of the manual on the course date.

Course Schedule

Date: Nov 21, 2011

Time: 1630-1900

Location: Room 1152

Classes will be facilitated with a minimum of 5 and a maximum of 12 on a first come first serve basis.

Basic Life Support (BLS/CPR) for Healthcare Providers (HCP)

Release Waiver

Physician or medical conditions which might be aggravated by the physical activities involved in the performance of Cardiopulmonary Resuscitation (CPR/BLS) are:

- Heart disease
- High blood pressure
- Fainting spells or severe dizziness
- Problems with joints, such as arthritis or an injury that limits movement or activity
- Surgery within the last 3 months
- Asthma or other breathing difficulties
- Some allergies

It is recommended that you do not participate if you have or think you have been exposed to any infectious condition, such as sore throat, cold, flu, cold sores, or other open sores on the hands and face, tuberculosis, Hepatitis, or HIV.

Should you choose not to participate in the physical aspect of the BLS course, you are encouraged to take part in the discussion because the information provided is as important as the skills themselves.

The Heart and Stroke Foundation of Canada, training agencies, or their instructors can not be held responsible for any complications participants may occur as a result of engaging in the BLS learning activities.

I, _____ (Please Print Name), hereby affirm that I have seen a medical doctor, within the last 30 days, who has advised me that I am in good physical or medical condition. I have read and understood the above.
